About Cal Sil

FEATURES

- Material is a 5 layer composite system comprising high-performance bonding agents, natural mineral granules, and a hardwearing topcoat with UV inhibitors.
- Round Fire Table = 45,000 BTUs
- Rectangle Fire Table = 28,000 BTUs
- Stone-effect finish
- Weighs up to 80% less than traditional stone
- Designed for outdoor use
- Available in Gunmetal or Midnight frame
- Easy to handle; less risk of injury when lifting
- High tensile strength

CARE

Clean regularly with a soft brush and warm water. If heavily soiled, add a little mild dishwashing soap to warm water, clean, and rinse thoroughly.

- Do not cover with unvented plastic or canvas covers.
- Do not use strong chemical cleaning agents, abrasives or solvents.
- Quickly clean up spills with a damp sponge or cloth.
- Failure to follow guidelines may void product warranty
